

Notice: Who is responsible for your Safety from Corona 19

Lockdown 4 has commenced and with the label of containment zone being removed things are looking brighter. Certain services and facilities will now be available which had been either closed or restricted for the last two months. The Covid 19 pandemic is still out there and unfortunately Greater Noida and Noida remain in the Red Zone. All of us need to be extra careful and remember only one mantra. Each and every one of us is responsible for our own health. All decisions you take need to be carefully evaluated as the risk involved has neither reduced nor gone away. Covid 19 is still all around us, invisible, asymptomatic, threat to life is real and the symbol of the absence of police from our main gate makes the threat worse. The issue is explained in terms of the new liberties announced.

1. **Newspaper delivery.** Though the delivery boy will be checked for fever at the gate he does touch your newspaper. Be aware and take your own decision.
2. **Milk Vendor.** He handles the containers and the milk you get is not pasteurised. He is not a resident and you cannot know for certain that he has not been in touch with an infected person. The choice is yours and you alone are responsible for your decision.
3. **Repair Mechanics.** They make our lives easy. We have spent a lot of money on items and they carry out repair during and outside warranty. Making sure that full sanitisation is maintained when the individual enters your house is your responsibility. Remember thermal scanning does not detect asymptomatic carriers of Covid 19. You alone are responsible for the risk involved.
4. **Shopping outside the society.** Now no one will stop you from exiting the main gate. When you are outside maintenance of Covid 19 protection is your responsibility. Wearing a mask, maintaining social distance, avoiding crowds is your responsibility. If at any stage you are checked for Covid 19 and found positive you will be responsible for again converting the Jalvayu Vihar Society into a containment zone. So take care and act with responsibility.
5. **Maid Servant.** This is one help that most of us have missed the most. Please remember that having a maid servant working in your house increases the risk of your contracting Covid 19. Take a decision to allow the maid, (she may be working in 3 to 5 houses if not more) increases your risk despite all the precautions you may take. This is your decision. Please act wisely.
6. **Barber and Beauty Salons.** To be perfectly groomed is what most of us desire. This will come at a risk. The person working on your hair, the equipment that he uses are all shared with all customers. You are responsible for the risk involved. Though the Society management will try to put in certain conditions to minimise the risk involved, please note that the decision to go to the barber or the beauty parlour is yours alone and you are responsible for putting yourself in danger. Covid 19 is still out there.

NOTE: WE ARE IN THE RED ZONE. EVERY DAY FEW PEOPLE ARE BEING TESTED POSITIVE FOR COVID-19. THE LESS NUMBER OF PEOPLE YOU ARE IN CONTACT WITH THE LESS YOUR RISK. REMEMBER THE TIME WHEN WE WERE IN CONTIANMENT. ANY CARELESSNESS ON YOUR PART CAN RESULT IN ALL OF US SUFFERING THE SAME AGAIN. STAY AT HOME UNLESS THE RISK IN GOING OUT IS WORTH IT. INSTALL THE AROGYA SETU APP TO SEE HOW SAFE YOU ARE.
